Protect every corner of your home with a **Complete Exterior™** by James Hardie

Hardie® Shingle

Hardie® Panel & Hardie® Trim Batten

Hardie® Plank

Hardie® Trim Boards

Hardie® Soffit

With a Complete Exterior™ by James Hardie, you can bring your dream home to life without having to choose between protection and long-lasting beauty. Using products from a single, trusted manufacturer that offers exceptional warranties, you'll have complete peace of mind, so you can sit back, relax and enjoy your home's exterior.

ONE MATERIAL

Only Hardie® fiber cement products are **Engineered for Climate®**, helping to resist damage from fire*, water, and insects that delivers optimal performance for your home's specific region.

ONE MANUFACTURER

Get added peace of mind with siding, trim, and soffit all on the same 30-year non-prorated warranty. One manufacturer to contact makes your life easier.

ONE MAINTENANCE CYCLE

Rest easy knowing that all your siding, trim and soffit is the same Hardie® fiber cement material. With all the products sharing the same lifespan, you can spend less time and money on upkeep and more time enjoying your home.

*Hardie® fiber cement products are noncombustible and/or have a Class A fire rating when tested in accordance with ASTM E84. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames. The use of noncombustible siding, combined with other fire mitigation measures, can help harden a home against external fire.

Durability you
can trust.

Protection you
can feel.

Tougher than the elements.

Fire

Help prepare your home for the unpredictable with noncombustible* siding that won't burn or ignite when exposed to a direct flame.

Listed for use in wildfire-prone Wilderness Urban Interface (WUI) zones in the western US.

- Verified noncombustible per ASTM E136
- Will not contribute fuel to a fire
- Class A fire rated per ASTM E84, with a flame spread index / smoke developed index of less than 0/5
- Verified in wall assemblies with 1-hour and 2-hour fire-ratings per ASTM E119

Cal-Fire Compliant

*Hardie® siding complies with ASTM E136 as a noncombustible cladding. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames.

Scan to see the durability of Hardie® products.

Pests

Creatures can wreak havoc on wood-based siding. It can be damaged by woodpeckers, termites and other pests. Hardie® fiber cement holds no appeal for these critters, saving you the maintenance hassle.

Water Resistant

From rain to ice to snow, precipitation patterns can lead to warping, swelling and cracking in wood-based siding. Take shelter from the storm knowing that your siding is built to resist water damage.

- FEMA Class 5 flood damage resistance (highest rating)
- Rated for use in High Velocity Hurricane zones by Miami-Dade County, Florida*

*Applies to most products by James Hardie. For full list go to: www.jameshardie.com/miami-dade-NOA

Time

ColorPlus® Technology finishes provide a durable finish that helps resist fading and discoloration that outperforms field applied paint, so your exterior can keep its good looks longer.

Hardie™ Zone System

Exterior solutions inspired by nature. And designed to protect your home from it.

Only Hardie® fiber cement exterior products are **Engineered for Climate®**, designed specifically with your climate zone in mind for optimal performance. In the northern USA and Canada, HZ5® products resist shrinking, swelling and cracking even after years of wet or freezing conditions. HZ10® products help protect homes from hot, humid conditions, blistering sun and more.

With Hardie® siding, trim and soffit, your home's exterior will be as tough as it is beautiful.

The highest-quality materials for your highest satisfaction.

Unique Formulation
Hardie™ Zone Substrate

Not all fiber cement is the same. Hardie™ Zone formulations require raw materials that meet our stringent quality standards. Our unique formulation, combined with innovative product design and manufacturing processes, creates a substrate that is specifically engineered to resist moisture, cracking, shrinking and swelling, for increased durability and workability.

Proprietary enhancements create durable Hardie® siding

PERFECT BALANCE OF STRENGTH AND WORKABILITY

Our unique balance of high-quality Portland cement, sand and cellulose fiber delivers the best combination of strength and workability.

ENHANCED MOISTURE RESISTANCE FOR UNMATCHED DURABILITY

Patented and proprietary additives are chemically bonded within the substrate matrix to provide durable moisture resistance.

INCREASED DIMENSIONAL STABILITY

Our siding is engineered at the microscopic level to create a fiber cement composite with superior dimensional stability that helps protect against shrinking and splitting.

Hardie® Plank
Arctic White

● James Hardie Manufacturing Plant

11 manufacturing facilities in the United States which source 81% of their raw materials locally

Unmatched investment in manufacturing scale and production innovation

- Largest manufacturer of fiber cement in North America

ADDING VALUE TO OUR COMMUNITIES

We recognize our ability to impact the communities in which we live and work. While maintaining a global mindset, we put great care into how our business affects local communities. We contribute by sourcing, employing, delivering and giving locally.

CREATING AN IMPACT

We invest in the local community and aim to locate the plants close to suppliers, customers and potential new employees, as well as sustainable transportation opportunities.

*Above statistics are the James Hardie impact from fiscal year 2024.

SETTING AMBITIOUS GOALS AS RESPONSIBLE STEWARDS

Reducing Scope 1+2 Emission
Reduce absolute Scope 1+2 GHG emissions by 42% by 2030 from 2021 baseline and work towards net zero by 2050

Minimizing Waste
Zero manufacturing waste to landfill by 2035

Recycling Water
Recycle an additional 20M cubic feet of water per year by 2030, compared to 2019

Long-lasting
beauty by design.

Finishing Technology

PRIMER

A quality primer is the first step to ensuring that the paint color you select expresses your home's true beauty now – and for years to come. Our distinctive primer is climate tested and engineered to enhance the performance of paint on Hardie® fiber cement exterior solutions. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

COLORPLUS® TECHNOLOGY

Our advanced ColorPlus® Technology finishes deliver the ultimate in aesthetics and performance. Our products aren't simply painted at the factory. Our proprietary coatings are baked onto the board, creating a vibrant, consistent finish that performs better, lasts longer and looks brighter on your home.

EXCEPTIONAL FINISH ADHESION

Our proprietary coatings are engineered for exceptional adhesion to our substrate and applied to the surface, edges and features for durable performance.

SUPERIOR COLOR RETENTION

The finish is cured onto boards for a stronger bond, which allows for exceptional resistance to cracking, peeling and chipping.

SUPERIOR UV RESISTANCE

ColorPlus® Technology finishes retain vibrancy longer compared to vinyl siding and the typical field paints used on other siding products.

Beauty begins with a finish that lasts.

COLORPLUS® TECHNOLOGY

ColorPlus® Technology finishes are fully cured on our boards in a controlled factory environment and arrive at your home ready for installation year-round. With prefinished color products, you'll have peace of mind, knowing you'll have a more consistent color and finish that doesn't depend on good weather.

With a variety of color options available to help bring your vision to life, ColorPlus® Technology finishes help keep your home looking beautiful longer.

Unparalleled beauty with unparalleled performance.

See the James Hardie difference

James Hardie invented modern fiber cement. Over 10 million homes* later, we continue to set the standard in premium, high-performance exterior cladding. Our products deliver uncompromising durability and finish quality for a beautiful, lower-maintenance exterior.

Our unrivaled investment in R&D and constant innovations in product design, manufacturing and distribution allow us to remain steps ahead of the competition. With the support of our employees and partners, and with our exceptional warranties, we're committed to helping protect your home and investment every step of the way.

* Estimate based on James Hardie North American sales and average housing unit size.

Industry-leading warranty for peace of mind

Protect your home with North America's #1 Brand of Fiber Cement siding, soffit and trim, backed by exceptional limited warranties. Unlike other companies, we don't prorate our James Hardie substrate warranty coverage. All Hardie® fiber cement products come with a transferable 30-year, non-prorated limited substrate warranty, meaning we stand 100% behind Hardie® fiber cement siding, trim and soffit products for 30 years.

ColorPlus® Technology finishes come with a 15-year limited warranty.

30-Year, Non-Prorated Siding, Trim and Soffit Substrate Warranty Coverage by James Hardie

* Based on Freedonia 2022 Global Siding (Cladding) demand projections and James Hardie sales in North America.

Make your home stand up and stand out.

Increase your home's re-sale value*

Re-siding with fiber cement siding is one of the top ways to increase your home's re-sale value.

Endorsements — a reputation built on trust

For decades, our fiber cement products have been used to create better places to live. That proven track record has earned us the loyalty of millions of homeowners and the endorsements of trusted authorities across the building industry.

Hardie® products are backed by the Good Housekeeping Seal.

FOR THE PROS

Hardie™ Moisture Management Products

Protection that performs at every layer.

No exterior cladding can prevent 100% of water intrusion. Your home should have an additional line of defense. Hardie™ Moisture Management products provide a superior balance of water resistance and breathability, keeping the area within the wall drier. This helps prevent moisture accumulation that may lead to mold and mildew growth.

INSTALLATION ADVANTAGES OF HARDIE™ WEATHER BARRIER

- Thicker, more durable material for long-lasting protection from water infiltration
- Superior tear resistance for easier, quicker installation
- Can be installed with staples in place of cap nails for cost savings
- Provides a higher level of performance, no matter what type of cladding you specify

Hardie™ Weather Barrier

Thickness	11 mil		
Length	100 ft	100 ft	150 ft
Width	3 ft	9 ft	9 ft

Hardie™ Pro-Flashing

Thickness	20 mil		
Length	75 ft	75 ft	75 ft

Installation Done Right

INSTALLATION ACCESSORIES

Hardie™ Blade Saw Blades

Manufactured by Diablo, the Hardie™ Blade saw blade is designed specifically to cut fiber cement products and is the only saw blade James Hardie recommends. The blade creates clean, precise cuts while helping to reduce the amount of airborne dust produced.

PacTool® Gecko Gauge

The PacTool® Gecko Gauge is designed to improve the installation experience, allowing one person to hang Hardie® lap siding during installation. The manufacturer claims the Gecko Gauge can improve the speed of solo installation by up to 30%.

Finishing Touches

COLORPLUS® TECHNOLOGY ACCESSORIES

Touch-Up Kits for ColorPlus® Technology finishes

Specially formulated to match ColorPlus® Technology finishes, our touch-up kits offer resistance to aging, color change and chalking. Estimated one kit per 4,000 sq ft of siding or 1,600 sq ft of trim.

Color-Matched Caulk

OSI® QUAD® MAX sealant offers a high-performance sealant solution to color match Statement Collection® products.* About 18–20 linear feet per tube. Refer to packaging for manufacturer's recommendations.

*For matching Dream Collection® products, contact your local James Hardie representative.

TRIM ACCESSORIES

Flat Tabs

Eliminate face nails and improve the aesthetic of trim applications around windows, doors and band boards.

Corner Tabs

Use corner tabs to eliminate face nail holes that would detract from the finished look of corner trim installations.
